Professional Summary

High-performing Information Technology graduate combining deep technical infrastructure knowledge (AWS Cloud Architecture, DevOps CI/CD pipelines, System Design) with a definitive track record of corporate sales engineering, strategic outreach, and value lifecycle pitching. Exceptional communicator skilled at mapping complex enterprise technologies to SMB and corporate metrics. Proven capability in managing large pipelines, closing external corporate sponsorships, and leading multi-department user acquisition frameworks that consistently hit conversion milestones.

Core Competencies & Technical Acumen

- **Corporate Sales & GTM Acumen:** Enterprise Sales Pitching, Outbound Lead Generation, B2B Deal Closing, Pipeline Tracking, Digital Brand Marketing, Stakeholder Management, High-Impact Presentation.
- **Cloud & Architecture Mastery:** Amazon Web Services (AWS Architecture, EC2, VPC, S3, IAM), Cloud Infrastructure Design, Performance Telemetry Optimization, Infrastructure as Code (Terraform).
- **DevOps & Platforms:** Continuous Integration/Continuous Deployment (Jenkins, GitHub Actions), GitOps Automation (ArgoCD), Containerization (Docker, Docker Compose, Kubernetes Network Topologies), Linux Systems Internals.
- **Data Analytics & Process:** Relational Schemas, Data-Driven Pipeline Forecasting, SQL, JIRA.

Professional & Strategic Experience

Foundersclan

Remote / Delhi, India

Startup Mentor (Business Strategy, Ops & Growth Frameworks) Feb 2025 – Present

- Engineered the fundamental organizational hierarchy and structural roadmap to direct long-term operational velocity and cross-functional team execution for a student-focused startup framework.
- Accelerated regional outreach and lead onboarding metrics by strategizing targeted B2B sales and marketing workflows across highly competitive student demographics.
- Drove high-impact lead qualification funnels by architecting and executing **10+ dedicated business development training sessions** for cohorts of 50+ prospective candidates per layout.
- Coached executive leadership to construct, finance, and close a major corporate workshop of **150+ active participants**, successfully landing **2 external commercial sponsorships** to achieve self-funding status.
- Controlled critical organizational decision gates including structural personnel optimization, talent hiring strategies, team architecture deployments, and foundational resource scaling.

Automated GitOps Engine & CI/CD Release Pipeline

Independent Technical Practice

DevOps & Systems Solution Designer

April 2026 – Present

- Built a high-throughput, standardized continuous integration framework leveraging **Jenkins, ArgoCD, and GitHub Actions** capable of handling multi-stage syntax compilation, structural code linting, and automated testing gates efficiently.
- Implemented declarative configurations and automated state reconciliation loops to completely eliminate manual infrastructure drift, maximizing stability and ensuring safe, repeatable application promotions.
- Translated core cloud infrastructure metrics into clear business benefits, demonstrating how automated deployment tracks minimize deployment risk, accelerate release velocity, and optimize platform reliability for end users.

Leadership & Campus Outbound Experience

Speakathon Club – Training & Placement Cell, GJUS&T Hisar, India

Club Coordinator

Aug 2023 – Aug 2024

- Organized comprehensive events including Speech competitions, storytelling Competitions, debate sessions, and class-wise as well as University-level group discussion series to build confident public speakers.
- Conceptualized and deployed “Pragyaan”—an enterprise-scale soft-skills and pipeline conversion curriculum—onboarding and successfully **training 1,000+ first-year candidates** across all 22 university engineering and science branches.
- Orchestrated the university’s first unified, multi-department corporate preparation engine, building a dynamic pipeline that managed screening, tracking, and evaluation for **200+ active candidates across 22 branches**.
- Drove inbound participation metrics by executing 4 group evaluation series and 2 inter-departmental debate campaigns, alongside holiday storytelling sprints capturing **100+ active student participants**.
- Expanded user conversion ceilings by leading specialized elocution forums, successfully driving immediate audience registration to **200+ concurrent students** tracking across 15 distinct academic departments.
- Spearheaded a comprehensive digital marketing layout across YouTube and Instagram, creating the multi-part “Standout Series” podcast consisting of 3 deep-dive episodes covering Group Discussions, Group Debates, and Mock Interviews.
- Generated targeted inbound engagement metrics via creative media assets, capturing **600+ direct views** on the career development series, over **2,700+ views** on a custom digital campus video tour, and accumulating **8,000+ collective views** channel-wide.
- Collaborated with the I-Connect Society to co-market and execute the landmark “Brain Battles” corporate sprint during the annual university Tech Fest, achieving top honors as the most highly rated event with **200+ registered attendees**.

Entrepreneurship Club – Training & Placement Cell, GJUS&T Hisar, India

Core Team Member

Dec 2021 – Jul 2023

- Introduced students to business infrastructure fundamentals by organizing structured interaction camps with established company founders to track real-world entrepreneurial journeys.
- Appointed as a core execution and promotional strategist for the high-profile **IBM Skills Build Event**, optimizing regional outreach to drive candidate registrations to **200+ active university participants**.
- Coordinated multi-tier corporate immersion events, business ideation pitch challenges (*Talash*), and modern growth marketing frameworks designed to train prospective student founders on seed negotiation dynamics.

Education

Guru Jambheshwar University of Science & Technology (GJUS&T) Hisar, India

Bachelor of Technology (B.Tech) in Information Technology

2021 – 2025

- **Core Coursework Architecture:** Systems Design, Relational Schemas (DBMS), Distributed Computing Logic, Computer Networks, Operating Systems Internals, High-Throughput Algorithms.

Honors & Commendations

- **Letter of Excellence (T&P Cell):** Awarded a formal Letter of Excellence by the Director of the Training & Placement Cell at GJUS&T for exceptional leadership in optimizing student placement conversion and talent alignment metrics.
- **Technical Architecture Sprints:** Logged a comprehensive 70-day intensive engineering design sprint focusing on advanced Linux system administration, public cloud deployments, and declarative infrastructure configuration profiles.
